Mercedes Diaz Homes Network — *Whittier, CA*
- Exhibited excellent problem-solving and critical thinking skills in daily administrative tasks.
- Managed multiple priorities and provided solutions to administrative challenges.
- Displayed excellent communication and organizational skills, ensuring smooth office operations.

PERSONAL PROJECTS

PinIt | *Flask, React, CSS, HTML, GitHub*
- Developed a Pinterest clone called PinIt using Flask for the backend and React/Redux for the frontend, showcasing proficiency in full-stack development.
- Implemented features such as user authentication, pin creation, board management, and image uploading, demonstrating hands-on experience with Flask and React/Redux frameworks.
- Designed and implemented responsive and visually appealing user interfaces for the PinIt project using CSS

MythicalBnB | *JavaScript, Express, React, Sequelize, SQLite3, Postman, GitHub*
- Created a comprehensive Airbnb clone project, encompassing both backend and frontend development using JavaScript and React, alongside Sequelize for database management. The project aimed to replicate the functionality and design of the popular accommodation booking platform Airbnb.
- Implemented search and filter features allowing users to refine their accommodation search based on location, dates, price range, and other preferences.
- Enabled users to leave reviews and ratings for accommodations, fostering a transparent and trustworthy community-driven platform.
- Integrated a booking system enabling users to select dates, make reservations, and manage their bookings seamlessly.

WuberEats | *Flask, React, CSS, HTML, GitHub*
- Collaborated with a team of three other developers to create WuberEats, an UberEats clone, with a robust Flask backend and a dynamic React/Redux frontend, showcasing comprehensive full-stack development skills
- Implemented features such as user authentication, restaurant browsing, menu viewing, and order placement, enhancing user experience and functionality similar to UberEats.
- Design and styled the user interface of WuberEats using CSS
